**SMALL GAINS REPORTED**

**Crown Prince Resumes Offense at Verdun But Attacks Without Success—Russians Make Progress, Tents Withdrawn Line in Galicia and Volhynia, Former Advancing.**

(Associated Press Telegram)  
London, July 8.—With the aid of innumerable guns and waves of infantry, the British army continues to make slow progress in its effort to bring the front line between the Ancre and Montauban on a level with the French line further south, the French having pushed further ahead than their allies. This effort on the part of the British has led to the most furious fighting in which the British troops have been engaged. The flower of the German army has been brought forward to oppose them and guns and ammunition are being used lavishly.

According to reports from Holland, Belgium has been denuded of German soldiers to meet the Anglo-French offensive and the railway stations, even in the larger towns, are guarded by the older reservists.

In London the reports of the British commander, General Sir Douglas Haig, are awaited eagerly and although the arrival of wounded tells the price which is being paid for the advance, the news of the small gains is being received with quiet satisfaction.

Notwithstanding the enormous call on German reserves for the battle of Picardy, the German crown prince has resumed the offensive at Verdun and yesterday made further repeated attacks near Thiaumont work without making any success.

In the east things are moving more rapidly. The Russians are making progress in their drives against the important railway junctions at Delatyn in Galicia, Kovel, in Volhynia, and Baranovich, north of the Pripiet marshes. Little news has been received in regard to the fighting in the region of Baranovich. In Galicia and Volhynia, however, the Germans admit the withdrawal of their line, the retirement having been forced by the rapid advance of the Russians in Galicia and the successful manner in which they dealt with the German counter offensive on the Lutsk sector. According to unofficial reports, Delatyn is surrounded on three sides and the Russians, having cut the easternmost lines of retreat across the Carpathians, are on the flank of the Austrians' new defensive line running through Stanislaw and Halicz. General von Bothmer may be compelled to fall.

## KILLED TWO PATROLMEN

(Associated Press Telegram)  
Richmond, Ind., July 8.—In attempting to arrest Eli S. Carr, 30, for drunkenness early today, George M. Little, 45, and Elmer Stevenson, 30, patrolmen, were shot and killed by the man. Carr was captured after being shot through the hip by Patrolman Charles Kuhlman, and he was taken to the hospital in a serious condition.

## Government Experts Will Help Combat the Epidemic of Infantile Paralysis

(Associated Press Telegram)  
New York, July 8.—Although this was the hottest day since the beginning of the epidemic of infantile paralysis two weeks ago, there were fewer fatalities from the disease than yesterday. During the 24-hours preceding 10 o'clock this morning the disease killed 18 children in the greater city, thirteen of this number dying in Brooklyn.

(Associated Press Telegram)  
New York, July 8.—Assistant Surgeon General W. C. Rucker of the Federal public health service, came here today from Washington to confer with the local health officers and direct the six experts assigned by the national government to help combat the epidemic of infantile paralysis. The federal experts will concentrate their efforts upon preventing the spread of the disease to other states.

"These inspectors from the public health service," said Dr. Haven Emerson, the city health commissioner, "will not take over our administration. They are empowered to go anywhere and adopt any measures not allowed the experts of our

## WAS A FORMER LIEUTENANT WITH CARRANZA'S ARMY

Newark, N. J., July 8.—Alberto Minondo, a former lieutenant in Carranza's army who deserted rather than stay in a position where he might sometimes be called upon to fight the forces of his "beloved America," has been rejected for enlistment in the United States Marine Corps at its Newark recruiting station.

The former Carranzista could not meet the physical requirements for the Marine Corps, although in Mexico, according to his own statement he had been considered a robust specimen.

Minondo is in New Jersey seeking members of the Madero family.

## 14 MEXICANS KILLED BY AMERICANS

El Paso, July 8.—Fourteen Mexicans are reported to have been killed in a fight with three Americans not far from Anapra, N. M., according to a report received here today.

## GRAIN DEALERS ELECT OFFICERS AT CEDAR POINT

(Associated Press Telegram)  
Cedar Point, O., July 8.—The Ohio Grain Dealers' Association re-elected John Wickenheiser, president; J. W. McCorm of Columbus, re-elected secretary treasurer and Earl C. Baer, Hicksville, vice president. The governing board consists of E. M. Crowe of Piqua; Joseph Downing, of Antwerp and C. E. Eikenberry of Camden.

The association protested against action of railroads in demanding that destinations be specified when cars are ordered. Secretary ordered to again ask state to notify farmers of importance of corn moisture tests.

## YEGGS ROUTED HOTEL GUESTS BY EXPLOSION

(Associated Press Telegram)  
Chicago, July 8.—Burglars who attempted to blow a safe on the second floor of an adjoining office building early today caused a fire which sent more than a hundred guests of the Chicago hotel on South Clark street to the street in night clothes. The charge of nitroglycerin started the fire, according to the firemen. The damage to the office building was \$50,000.

## FEARED DEATH; KILLED SELF BY SHOOTING

(Associated Press Telegram)  
Dayton, July 8.—O. F. Packard, 78, who came here some time ago from Toledo, was found dead in bed with a bullet wound in his head with a revolver in his hand, by a maid this morning at his home in South St. Clair street. He had ended his life, fearing a porcupine quill which a pet animal had shot into his body, was working his way to his heart and would kill him.

## ASKS \$50,000 FROM HIS MOTHER-IN-LAW

(Associated Press Telegram)  
Fosteria, O., July 8.—Robert Squires has sued his mother-in-law, Mrs. Jennie Richards, for \$50,000 for alleged alienation of Mrs. Squires' affections. Mrs. Richards recently inherited a large fortune, part of the estate of William Cole, owner of the Cole Bros. circus.

## DRIVING BACK GERMAN LINE IN THE EAST

While the entente allies on the western front have been temporarily handicapped by heavy rains in the further pushing of their offensive, the Russians under General Brusiloff are continuing to drive back the Teutonic lines in the east.

Further notable progress has been made by the Russians in Volhynia, where their movement upon the important railway center of Kovel is gaining in force. Today's Petrograd announcement shows them at Gruziatyn, 30 miles southwest of Kovel. Further north their lines have been pushed forward to Dolzyc, on the main road from Kovel to Maniewicz station on the Kovel-Sarny railway, the capture of which by the Russians was reported yesterday.

In Galicia, where Count Von Bothmer was recently compelled by Russian pressure to fall back to the line of the Koropiec, a dozen miles west of the Strips, a new advance of the Russian is reported.

In the region between Riga and Volhynia the Germans are developing more formidable resistance to the new Russian offensive and some recession of the Russian lines in the Lake Narocz region, south of Dvinsk, is admitted. The battle near Baranovich is still raging with little change in positions.

In the field of the western offensive of the allies a rainy night was employed chiefly by the British in strengthening the positions won yesterday in their drive to bring their lines up to a level with those of the French on their right flank.

Heavy French guns now being brought up are counted upon to assist in a further advance of the British by pounding the southerly side of the German salient south and east of Contalmaison.

The French were busy with minor operations last night on the Somme front, making a successful surprise attack near Belloy-en-Santerre in gaining ground east of Estrees in hand grenade operations. They reported the capture of 40 additional prisoners.

## GIRL ENDS LIFE IN STAR HOTEL AT COLUMBUS

Columbus, July 8.—"I can't stand this any longer. Notify my father, John Houser of Upper Sandusky. Please bury me in these clothes," read a note written by Miss Flora Houser, 22, of Upper Sandusky, who committed suicide at the Star hotel early Friday by taking carbolic acid.

Raymond Davenport, night clerk at the hotel, was passing through a hallway when he stumbled over the young woman's body.

## TROOPS

**Held in Readiness Along the Border to Pursue Mexican Bandits**

**BELIEVED TO BE MOVING NORTHWARD**

**Army Officers Are Taking Precautions**

**VICINITY OF PRESIDIO**

**May Be Objective Point of Villaists—American Commander in Big Bend District Has Considerable Force to Cope With Bandits—Visiting Old Haunts Near the Rio Grande.**

(Associated Press Telegram)  
San Antonio, July 8.—For more than two hundred miles eastward from El Paso, American troops were being held in readiness today to move to any point on the border that might be threatened by the newly organized bandits in Chihuahua.

Early morning reports to General Funston added nothing, however, to the rumors of yesterday, most important of which was the warning from the de facto government of Mexico that bandits, who defeated Carranza's soldiers near Jimenez, were believed to be moving northward toward Ojuna, opposite Presidio, Tex.

Colonel Gaston, commanding the American forces in the Big Bend district was authorized by Gen. Funston to make such disposition of his troops as he deemed to prevent bandits crossing the river. He has at Presidio and stations east and west of Presidio a considerable force, including the Sixth cavalry, his own regiment and the Fourth Texas infantry.

Although taking all precautions and not minimizing the reports that Villa himself is at the head of a new organization of bandits army officers today were not inclined to believe the bandits would attempt any movement in force towards the north, especially if led by Villa. The opinion of army officers generally was that the bandits would confine their activities for a time in harassing the Carranza troops south of Chihuahua City and move north and west towards Durango and south-west of Chihuahua, Old haunts of Villa.

General Pershing's retirement from points in this region would leave the pursuit there to Carranza's army that has closed in as Gen. Pershing's army moved northward.

## EXPECT ATTACK ALONG BORDER FROM BANDITS

(Associated Press Telegram)  
Washington, July 8.—Further report on the fight in which bandits overwhelmed a Carranza force near Corralitos, southern Chihuahua was looked for today by Eliseo Arredondo, Mexican ambassador designate and the state department to which he promised to communicate the information. Of greatest interest to officials was the question of whether the outlaw band included Francisco Villa, and whether it is bound for the American border to make another raid, the possibility of which Gen. Carranza mentioned in a special communication to the American government yesterday.

War department officials expressed doubt whether any bandit force would attempt another attack such as that on Columbus, N. M., and there it was said that the bandits were not expected to cross the border.

With disqualifications against several companies of the fourth, fifth and sixth regiments of the Ohio National Guard.

## ORDERS

**To Move May Soon Be Received by Ohio National Guardsmen**

**EIGHTH PROBABLY FIRST TO LEAVE**

**Militiamen Will Soon Be Paid**

**ACCEPT AKRON COMPANY**

**Will Probably Be Mustered Into the Federal Service Today, Making Eighth Ohio First Complete Federal Unit Taken From the Ohio Guard—Extra Company of Engineers.**

(Associated Press Telegram)  
Camp Willis, Columbus, July 8.—There is a persistent belief among the Ohio National Guardsmen today that orders to move to the border may come soon. The units that are in line to receive these orders will probably be the Eighth infantry, the First Squadron of cavalry and the second field hospital company.

The cavalry squadron and hospital company have been mustered in and there remains only the physical examinations before they are ready to move south. Adjutant General Benson W. Hough who went to Washington to confer with the war department officials concerning appropriations for pay of the state troops, is expected to return today. He is understood to have learned that the appropriations are now available.

Officers were confronted today with the problem of disposing of an extra company of engineers that has been mobilized. The war department call included three companies of engineers. When the troops were mobilized all four companies composing the First battalion were brought to Camp Willis. The war department has refused to accept the Fourth company. All the companies are from Cleveland.

An attempt is being made to combine the extra company with two companies of engineers from Michigan which are unattached, thus forming another battalion.

Word was received at the Camp today that disqualifications placed against several companies by federal inspection officers have been withdrawn by the war department. The companies removed from disqualification are C and G of the Fourth regiment, B, H and D of the Fifth and Company M, of the Sixth. The only company remaining disqualified is Company A, of the Fourth.

Word also was received to accept company B, of Akron of the Eighth regiment. This company probably will be mustered in the federal service today, making the Eighth regiment the first complete federal unit taken from the Ohio guard.

With the completion of so many questions arising in the mustering of the Ohio national guardsmen into the federal service, Adjutant General Benson W. Hough returned today from Washington prepared to clarify interpretations of numerous points of the new federal army law. As a result of this information, it is declared, the formality of federalizing the Ohio troopers will be materially expedited.

The eighth regiment, with the exception of its commissioned officers was mustered into federal service. It was the first Ohio regiment to be federalized.

With disqualifications against several companies of the fourth, fifth and sixth regiments of the Ohio National Guard.

## Seven Lives Lost in the Tropical Hurricane, With Millions Property Damage

(Associated Press Telegram)  
New Orleans, La., July 8.—At least seven persons have lost their lives, and property has been damaged to the extent of more than four million dollars, according to reports early today from the storm-swept regions of Alabama and Mississippi. Crops and timber suffered heavily.

Rains that assumed the proportions of cloud bursts followed the tropical hurricane in Alabama, causing serious flood conditions at Prattville and Birmingham, where creeks overflowed their banks and invaded stores and factories.

The main list consists of one white man and six negroes. The former, a locomotive engineer, was killed by his negro fireman, when his train ran into a washout at Bond, Miss. Three negroes were drowned in the Birmingham district, and two on the Warrior river near Tuscaloosa when a small boat sank.

The American schooner, Mary G. Danziger, the Norwegian schooner Anselm and an unidentified two masted vessel were lost off Ship Island in the Gulf of Mexico Wednesday, according to reports at Gulf Port. The crew of the Anselm was saved but no trace of the others has been found.

Thirty-six men comprised the crew of the three vessels. Wire communication was restored with Mobile for a short time last night and it was definitely established that no lives were there. It was also developed that reports of loss of life at Pelott, Ala., were incorrect.

Railroad traffic throughout the storm area is badly disrupted and railroad officials say it will be several days before anything approaching normal service can be resumed. "Pennsylvanians came safely through the hurricane. None were injured. Damage to docks and buildings was not serious. This early today from the news telegraph station at Pottsville.

**O. J. HAWKINS** SENIOR MEMBER OF THE CONTRACTING FIRM OF O. J. HAWKINS & SONS, 310 Trust Building, was born in Oskaloosa, Iowa, April 3, 1856, and is the embodiment of all that a self-made man can be. He served his apprenticeship as carriage maker at 17, turned to planing mill work and advanced to general foreman and manager of several plants during which time he gained a knowledge of architecture, by diligent study. Mr. Hawkins is a contractor having a life's time experience and has two of his sons associated with him in his work. He believes that buildings should be plain, symmetrical, and everlasting and is as careful in their construction as though he were building monuments to himself. Mr. Hawkins was a contractor in Cambridge, O., until 1905 when he removed to Newark, having since built such buildings as the Neil Avenue M. E. church, the K. of P. Castle and at present is engaged on the Cherry Valley school. On coming to Newark, Mr. Hawkins observed great deposits of clean sand and gravel among our natural resources and has made a specialty of concrete since that time, adopting the motto "Concrete for Permanence" as his watchword. After the war is over he talks of adding a 42 centimeter gun, as a concrete drill, to his equipment. Mr. Hawkins' hobby is saxophones and music, having been a member of the Buckeye Band and has organized and educated several church choirs, among them that of the Neil Avenue M. ## BERLIN'S NEWS

### SENT FROM THE WESTERN FRONT

Berlin, July 3, via London, 11 a. m.—Today's news from the western front throws little light on the fighting during the last 24 hours but the advices show that the fighting in the period immediately preceding was most intense at three points, at Thiepval and the village of Hem, and the region ten miles south of the Somme river.

In the Thiepval sector there was a succession of battery assaults and counter attacks. The British several times succeeded by violent assaults in gaining a foothold in Thiepval, but each time were ejected from the ruins of the village. Their losses are described as "extraordinarily heavy."

The only British success, and this is declared to be unimportant, was the capture of a salient of German trenches in the region of La Boisselle only a short distance east of the original German line. From La Boisselle southward the fighting was of a terrific character.

The capture of the village of Hem was accomplished by the French only after three desperate attempts. The first two onslaughts, although delivered with great force and determination, were repulsed. The third assault gave them possession of the village and enabled them to straighten out their line between Curin and Feuilletes. The fighting at Bures and Belloy-en-Santerre also was of a house to house and hand-to-hand encounter. The wave of battle swept

## ORDERS

(Continued from Page 1.)

and sixth regiments removed by of ficials word from Washington is these regiments will follow in quick succession. All units of these regiments are now regular and subject to muster with the exception of company A, of the fourth, located at Cardington.

Colonel Edward Vollrath of the eighth regiment today declared reports that he had received transportation for his command were unofficial.

"I have absolutely no word to that effect," declared the colonel.

Months ago the war department gave orders to the state authorities as to the establishment of the mobilization camp, anticipating that it would become necessary. Those orders were followed exactly and when the matter of pay came up Chicago military authorities bluntly informed the state authorities that there was no money available to pay the expense. This naturally caused some consternation here and to ascertain the facts was the chief object of the trip of General Hough to Washington.

There he found that it was strictly true as Chicago had reported that at the time no funds were available, but the appropriation had been made and since then has become available. So that matter is all provided for now.

Immediately upon his return General Hough took steps to see that proper provision is made for the "rookies" who came to camp with no extra underwear or socks or who are badly in need of shoes. This action was at the solicitation of Governor Frank B. Willis. It was declared at camp headquarters.

Adjutant General Hough defended the stand taken by mustering officers in refusing to issue uniforms, equipment, uniforms or supplies until the mustering process has been completed.

"Suppose they had issued this property to the men, then, when they were examined 20 per cent of them were rejected," said the general. "These men would have left camp with this property and as a result every company commander in camp would have been held for several hundreds of dollars worth of equipment for which they are under bond which covers all government property in their charge."

General Hough expressed the belief that the Ohio troops will be sent south as regiments and not in brigade formation. General Hough does not know when the movement of troops towards the border will begin nor to what points the troops will be sent. He said that the Washington officials had only commendation for the plans followed in Ohio, namely that of putting the mobilization camp into proper condition as to sanitation and other means for bringing the troops into camp and also giving them experience in drilling before reporting them as ready to be sent south. The general would not be surprised if considerable numbers of the troops are detained in Camp Willis for a considerable length of time so that they may be well seasoned.

General McMaken, the camp commander, is especially gratified over the good condition of the health of the men. The camp strength today was 10,987, with but 70 answering sick calls this morning. They are suffering from minor complaints. Only 12 are ill enough to be in the hospital. This is a much smaller per centage of sickness than would exist in a like population in a municipality.

# Three Million Auto Tires made—by GOODRICH, in year 1915

**STUDY** the Price-List publicly printed below. Compare with the List-Prices of other Tires made in LESSER Volume.

Observe that competing Prices are higher in almost the exact proportion that VOLUME of production is smaller.

This, when Quality approaches the Goodrich Standard. Cut our 1915 Tire Output (of 3,000,000 Auto and Truck Tires) to One-third, and it would still far exceed the Average of all Competing Makes or Brands.

But, that huge reduction in Volume MIGHT result in every Tire we made costing you One-third MORE than present prices.

They would not,—and could not,—be BETTER Tires, at this necessarily higher-cost to Us, and higher-price to You.

Because,—Goodrich Tires are not made "up to a price,"—nor "down to a price."

**WE**, first of all, make the BEST Fabric Tires that our 47-year Experience in Rubber-Working,—our huge Purchasing-Power, and the most Advanced Equipment, renders possible.

Then we let Cost fall where it will.

To that Cost we add a moderate, and fair, Profit for Ourselves and for our Dealers.

Then we let VOLUME rise,—as it will.

The more Tires we Make, the LESS each Tire COSTS us to produce,—and the less it costs YOU to buy them.

The more Tires we Sell, the less profit, per Tire, WE NEED, for dividends.

The more Tires we make, the better we KNOW HOW to make them,—the more we have at Stake on Quality,—and Satisfaction to Consumers.

And,—because of all this,—

—The BEST Fabric Tires that Skill,—Experience,—Good-Faith, and Maximum Volume, can build,—are now available to YOU at the VERY MODERATE Fair-List Prices here quoted.

Why pay more for ANY Fabric Tire?

## OHIO STATERS ON THE ROCKS; THREE GIVE UP

Portsmouth, July 2.—Three cities of the Ohio State League, Lexington and Frankfort, Ky., and Charleston, W. Va., were dropped from the circuit at the league's reorganization here yesterday. Chillicothe was given a franchise and with Portsmouth, Huntington and Mayaville, will comprise a four-club league that will battle during a seven-week season, closing Labor Day.

LIFE OF THE ATMOSPHERE				
The three gases, oxygen, nitrogen and carbonic acid gas, which are found in the air about us are constantly being used up. All living animal creatures are at all times taking oxygen out of the air to live on. Certain microbes are using up quantities of the nitrogen all the time, and the plants live on the carbonic acid gas. But while these different kinds of life between them use up the air, they give back something also. The plants give off oxygen. The bodies of the animals and plants when they die decompose, and as they are full of nitrogen that is given back to the air in that way, and then all living creatures are always throwing off carbonic acid gas through their lungs, and thus everything that is taken out of the air is put back again. The plants live on carbonic acid gas and give us back oxygen. The living creatures live on oxygen and give off carbonic acid gas, and when they die their bodies put back in the air the nitrogen which the microbes take out, and so consumption and production are about equal all the time.—Philadelphia Press.

Elephant Threnodies.  
The natives of certain portions of south central Africa look on the death of an elephant as an event. They attach an almost religious aspect to it. "As soon as the animal stalked is stretched on the ground the hunters climb upon the huge, warm body and there perform a dance, gesticulating and shaking their guns, accompanied by a sort of litany, in which they extol the animal and his qualities, his strength, his size, his cunning; then they praise the skill of the hunter, his prompt eye, his accurate shot. And this song is just murmured, as if they were afraid that if they raised their voices they would attract the curse of the spirit which has just left the animal and is still floating around him."

## People His Hobby; Boys His Specialty

DR. JAMES S. KIRTLLEY.

"IN the Barefoot Kingdom" is the subject announced by Dr. James S. Kirtley, who is to be here on the fourth day of the Redpath Chautauqua. It has been said that Dr. Kirtley's hobby in general is people and that he specializes in boys. His two special characteristics are originality and humor. You may have heard a lecture about boys, but you haven't heard a boy lecture that is anything like "The Barefoot Kingdom." The most distinctive impression one gets from this lecture is that the speaker was once a boy and knows exactly what's in a boy and what ought to be in one.

## LOCAL MAN IS ON PROGRAM AT CHAUTAUQUA

W. E. Hopkins, special superintendent of the Associated Charities of this city, is now appearing on the Redpath-Brockway Chautauqua system, and was in Greensburg, Pa., from June 29 to July 6, delivering six lectures. Mr. Hopkins has long been prominent in civic work, and the main branches of his general subject deal with civic life.

The addresses which Mr. Hopkins delivered in Greensburg and other towns which he visits on the Chautauqua circuit are: "From Jungle Town to the Ideal Town," "Organized Industry," "The Civic Life," "The Educational Interests," "Community Service," and "The Ideal Town."

The Railroad.  
Newark at Cleveland.  
The Newark Division Baseball of the Baltimore and Ohio railroad will journey to Cleveland where they will play the Baltimore and Ohio baseball team of that place. The last time these teams met Newark won by the score of 3 to 2 and they are going with the determination of duplicating the feat. The following Newark Division players are requested to be at the Pennsylvania Depot not later than 6 a. m. as the train leaves at 6:15 a. m. Shooter, Paul, Smith, B. O. Roll, Thorpe, Connell, Sullivan, Cocanour, Williams, Hummel, Webb, Kiely, A. E. Roll, Wilson.

Troops Enroute.  
Five troop trains passed through Newark today via the Pennsylvania lines enroute to the Mexican border. The usual large crowd of Newark people was at the station to greet the soldiers. One of the most impressive sights of the five trains was the second section, which was composed entirely of cars loaded with motor trucks. Two sleepers and 30 cars of trucks composed the train.

Move Land Car.  
The Indian Land car which has been in Newark for the past week, was moved over the Baltimore & Ohio railroad to Parkersburg, late Friday.

Some Abbreviations.  
Viz., oz., cwt., dwt., @, a/c.  
Do you know why we write these everyday signs and what their origins are? Viz. is derived from the first two letters of the Latin word "videlicet," meaning "namely." The z is a corruption of an ancient sign something like a 3 that, in the middle ages, was always placed at the end of an abbreviated word to mark its incompleteness.  
In course of time this sign became z. The same applies to oz., our abbreviation for ounce.  
The letters lb., standing for pounds in weight, are the first and third letters of the Latin word "librae." Cwt. (hundredweight) and dwt. (pennyweight) are also abbreviations of Latin words. The c is the Latin numeral for a hundred; the d the initial letter of denarius (penny), and the wt. is short for the word weight.  
A/c stands for "account current," the stroke only being put to separate the letters. The @ stands for "ad," the Latin word for "at" or "to."—London Standard.

The Farmer's Wife.  
In the Woman's Home Companion is an article by a farmer's wife, who says:  
"Given a good husband and good health, there's no one in the world who needs pity less than the farmer's wife. She has a rich and resourceful life if she will make it so, and she usually does. She's the most independent woman on earth of panics and money stringencies and things of that sort. Her family simply can't go hungry. There'll always be potatoes and turnips down in the cellar and meat in the smokehouse, to say the least. She always has eggs and chickens and milk. She can take a bushel of wheat to the mill and get it ground for 10 cents. She can draw on her storeroom for fruit and sweets, and her table is supplied. When the mechanic is out of work his family must stop eating or live on charity, but it isn't so in the farmer's family. Capital and labor have got to do some mighty hard grinding before they grind the farmer."

A Famous Opal.  
The most famous opal in history was that which was won in a ring by the Roman senator Nonius in the day of the triumvirate. Its size equaled that of a medium sized hazelnut, yet its beauty and brilliancy rendered it a marvel among the dietitians of Rome, especially when it was known that the goldsmiths and money changers had set its value at \$1,000,000. Mark Antony made overtures to Nonius for its purchase, intending, it is thought, to present it to Cleopatra, but the senator refused to part with it and for fear that it would be taken from him by sheer force sought safety in flight. Here history loses all trace of this famous gem, there being no record of its transference from Nonius to any of his family.

Shop Talk.  
"The great trouble nowadays," began the curstionate philosopher, "is that no man is satisfied with his job."  
"My job suits me," interrupted the chimney sweep.  
"And I'm stuck on mine," yelled the car spreader from the adjoining roof.  
Whereupon the orator turned his theme from economics to preparedness.—Puck.

## CHERRY VALLEY PEOPLE TO MEET MONDAY EVENING

There will be a meeting of the citizens of Cherry Valley, Monday evening, July 10 at 7:30 o'clock in the assembly room of the Trust building to organize a Cherry Valley Improvement Association. The purpose of the organization is to improve the roads, lay walks and otherwise develop the property for the convenience of West End manufacturers, property owners and people traveling through that section of the county. A fine new school house is now under construction in Cherry Valley. At present the employees of West End factories, particularly those of the Buckeye Rolling Mill, are at great disadvantage in winter weather because of the absence of good roads and good sidewalks.

## COMPARISON OF GAMES PLAYED BY THE MAJORS

(Associated Press Telegram)

New York, July 2.—Records compiled from the box scores of the major league games from the opening of the season to July 1, furnish some interesting data for a comparison of the work of the various teams in the two leagues. In the American League the New York Club, which heads the pennant race, leads in total number of runs scored; is fourth in hitting and has made more errors than five of the rival contenders. Cleveland is second in runs and hits and has made seven less errors than the Yankees. Detroit is third in run making; first in hits and third in the least number of errors. St. Louis is third in hits, fourth in runs and with the New York Club is tied for sixth place in error making.

Washington and Chicago have made about the same number of runs and hits but the White Sox have made less errors than any other clubs of the major league. Boston while playing with fewer errors than any club except Chicago, is well down the list in batting and run scoring. The Philadelphia Athletics are last in hits and runs and have piled up more errors than any of the other flag contenders.

The complete records of the sixteen clubs in the American and National leagues from April 12 to July 1 show the run hit error men left on bases and opponents runs, are as follows.

## IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist a four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous uric acid is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## GARLINGHOUSE FOR COMMISSIONER

George Garlinghouse of Monroe township, is seeking the Democratic nomination for membership on the board of Licking County Commissioners. Three are to be nominated by each party at the primary election on August 8th. Mr. Garlinghouse came to Licking county 31 years ago from Delaware county. He lives on a farm near Johnstown. He has been elected township trustee six times by his fellow citizens. Mr. Garlinghouse has three children, one of whom, Glenn, lives in Newark. He is making an active campaign and one of the chief planks in his platform is "Good Roads." Mr. Garlinghouse got up the first petition in Licking county for a pike.

ESTABLISHED IN 1820

Entered as Second Class Matter March 10, 1882, at the postoffice at Newark, Ohio, under the Act of March 3, 1879.

It is never a good plan to swap horses while crossing a stream of water—Abraham Lincoln.

The Kaiser is still pinning badges on his soldiers, while Carranza is pinning them on himself.

President Wilson would substitute bread and butter for bullets in dealing with the ignorant peons of a bandit ridden country.

The fact that a fellow can dance until 2 a. m. does not prove that he could go to a militia armory and drill for an hour and a half.

Formerly people used to write brilliant and witty letters to each other, but the modern idea of wit is to send your friends a postcard with a printed joke on it.

After reflecting on the high price of gasoline, a good many people are wondering whether the splitting up of the old Standard Oil company was a necessity or a luxury.

Scenes now being enacted in the back lots are not the French and the Germans contending desperately for the possession of the famous Hill No. 60, but merely the rival neighborhood kid nines disputing a close decision.

## Automobile Tours

The number of people who take long automobile trips in summer is very remarkable. The machine that whizzes through the main streets of Newark may have come a thousand miles. And these long distance tourists are not by any means those that own the most high priced and comfortable cars. The man who is insured to bump around in an inexpensive car gets hardened to jolts, and thinks little of a trip of many hundred miles. The motor trip habit is one of the most serious problems the railroad has to meet. Even with high cost gasoline and tires, the journey for a family is cheaper over the road than it can be on the train. The upkeep of the highway on which you run is paid for by the tax payers. On the railroad the price of the ticket pays maintenance of tracks. Still the man who can't afford an automobile need not feel that all the joys of life are denied him. He spends no hours on his back in the road looking up into the bowels of the machine. He is bothered by no refractory spark plugs, and he gets to his destination while the motorist is hours distant.

Ouch! Poor Smith is down and out. Ah, me! When thrown on his resources, he found out he hadn't any. —Luke McLuke

Goin' Some. It takes a member of an alien race sometimes to make an original definition. Here is a new superlative description for speech told at Marblehead the other day while the fog held the racing yachts at anchor. A near race riot happened in a Southern town. The negroes gathered in one crowd and the whites in another. The whites fired their revolvers into the air and the negroes took to their heels. Next day a plantation owner said to one of his men:

"Sam, were you in that crowd that gathered last night?" "Yassir."

"Did you run like the wind, Sam?" "No, sir. I didn't run like the wind, 'deed I didn't. But I passed two others that was running like the wind."—Boston Record.

Did You Know That the Edinburgh Review was the first of the great critical periodicals which form a distinguishing feature of literature of the 19th century? It was started in October, 1802, by Francis Jeffrey, Sydney Smith, F. Horner and Henry Bruce. Of the first number, 750 copies were printed; the demand exceeded this supply and 750 more were printed, and successive editions followed.

## Watchful Waiting Doing Well.

(Ohio State Journal.) The relations between the United States and Mexico seem less strained now than at any time within the last three weeks. If Carranza ever was foolish enough to desire war, which we doubt, he appears to have changed his mind. His latest note is conciliatory in tone and apparently leaves open no disagreement between the two nations which cannot be ironed out by further diplomatic exchanges.

A great deal of sneering at what is called watchful waiting has been heard of late. If this policy of patience had not obtained in Washington

## PRESIDENTIAL POINTERS

It is usual in other countries to have a special design to designate the presence on a vessel of the ruler of the nation. It was not until lately that the United States had such a flag. President Arthur suggested it in the early part of 1882, and, as his cabinet concurred in his suggestion, decided on the design of a blue ground with the arms of the United States in the center. The navy department ordered that this flag should be displayed at the mainmast of any vessel that bore the president. Arthur first used it in 1883.

The original publisher was Constable. The political views advocated in the Edinburgh Review were Whig. Since the period of Jeffrey, the most brilliant contributor to this periodical was Lord Macaulay.

Limerick Contest Award. Last week's responsibility we weakly tried to shirk, And left it to the office boy to do his deadly work; This little brief authority, we're very glad to note, Has made him much less haughty, for it surely 'got his coat.' We knew the difficulties that he'd meet and so your bard is glad that he was up against this proposal hard. And now we're ready to take up the case of Mr. Paul. Whom one of you attired in clothes apparently too small. We really feel that his embarrassment we should excuse. When as 'twas hinted, he so feared her austere father's shrew. And then, as many thought the boy on matrimony bent. We doubly sympathized with this poor-over-modest gent. But his offer was so quaint and so ingenious withal. We're forced to hope that she decides to marry him this fall. So if we really care this happy ending to achieve. We must award the dollar to the man that we believe, In spite of all his bashfulness and small ill-fitting dress. Staid with his odd proposal until Mary answered yes. The man on whom this week we've wished the dollar then—oh, pshaw. You have surprised it probably—it is H. C. Alsopach. We hereby prize his added line and hope you'll think it good. We'd gladly send a plunk to each contestant of we could.

Paul and Mary. A young man whose first name was Paul. Went one evening on Mary to call: He got very red. As he bashfully said: "Suppose we get married next fall." —H. C. Alsopach, 211 North Eleventh Street, Newark.

Of these appended "lines" you, too, will see the excellence. And doubtless will agree that each is worth a hundred cents: When I'm with you I feel so blamed tall. —Jasper F. Holmes.

Your beauty my soul doth enthral. To reach you dear Mary, I'd crawl. —C. S. Thompson.

Is the shoe father wears, large or small? I guess I have not got the gaw. —Bertha Jones.

Will you go for a row in my yawl? Be mine, dearest Mary, this fall. —Mrs. Mary E. Dorsey, Granville.

I am willing to give you my all. Of my friends you are dearest of all. —Lester B. Newkirk.

You're the girl I love better than all. The minister is out in the hall. —Mrs. Herbert Carlyle.

"Good evening, Miss Mary, (that's all). The dressmaker's name is Ernest Cady." I don't like you, I have not got the gaw. —S. W. Warner.

I love you Mame dear, best of all. —Edith Penney.

Will you go with me to the ball? I like your company, Mary—that's all. —Mrs. Clara Greider.

I feel so ashamed I could bawl. Let's sit here and spoon in the hall. —Melissa A. Melick.

My mother just said I might call. I cannot propose, but I fall. —John W. Parkinson.

(Katherine enclosed with her line: "I have a line Which I think will rhyme: And I hope It will be in time.")

Will you accompany me to the ball? Would you object to calling me Paul? Will you be mine in the fall? —Goldie Miller, R. D. 8, Newark.

Dear, to me you are all in all. Be mine and misfortune can never appall. —E. G. Hershberger.

So now that Paul is paired off with the lady he admired, Let's turn to Mr. Burke and find out why he is so tired: —(Not Col. William Burke.)

Said an elderly fellow named Burke, "It seems I do nothing but work; It must be confessed That I long for a rest."

Consider well the case of Mr. Burke; send your reply Next Friday ere the clock strikes six. The 11th of July. And in return we'll send a dollar to the author who. Devises what is best for this poor gentleman to do.

The Return of the Warden. Thomas Mott Osborne's reinstatement as Warden of Sing Sing Prison follows as a matter of right and justice his vindication in the courts against the various charges of immorality and perjury and otherwise which brought about his temporary retirement. —New York World.

The Rewards of War. As every soldier in Napoleon's army was said to carry a marshal's baton in his knapsack, so, too, may every American rookie have some future advancement rolled in his kit. Besides the many who went into the first Mexican War, and who won subsequent military distinction, Taylor became President. Scott was a candidate for the office, and Jefferson Davis was chosen as head of the revolting Confederacy. Out of the Civil War came four Presidents—Grant, Hayes, Garfield and McKinley—and the Spanish War helped Roosevelt to the White House. Mill-

## Advertising School

LESSON NO. 1. The keynote of old fashioned advertising was the announcement style. The dry goods or provision store ad looked about like a typical doctor's or lawyer's card. It was simply a statement that Jones & Co. were doing business. Here was a common illustration:

JONES & CO. Best goods at Lowest Prices. Call and See Us. Satisfaction Guaranteed.

Now let not the reader scoff too much at that ad. It has some value. It was a reminder to every reader of that newspaper that Jones & Co. were doing business. It suggested that they were reaching out after new trade, and it had some effect to keep them before the public eye. But the chances are that the ad remained in type a number of weeks, in which case its power to attract interest, which was strictly limited from the start, had wanted to a low point. Comparatively speaking, this ad will not sell goods.

The worst trouble about that ad is that it gives the reader absolutely no information. The reader knows that every dealer claims the best goods at the lowest prices. He knows he wants them to call, and see the stocks and he knows every merchant claims to give satisfaction. The ad was valuable solely for its service as a reminder.

About ten or twenty years ago, a new style of advertising came into vogue, which might be called the Fine Writing School, or the Humorous Ad School. The effect was to interest the reader by originality of composition. The ad writer drew on his imagination, his gift for melodious expression, his poetic nature, his sense of humor, in fact on everything except information about the goods. He ransacked the dictionary for pompous and glowing adjectives, and he racked his brain for some new joke.

## ELECTING A PRESIDENT

11 Nation Rent by Slavery Issue in 1860.

LINCOLN.

THE election of 1860 found the country on the verge of civil war. The abolitionists were members of the Republican party, and in the convention Lincoln defeated William H. Seward of New York. Lincoln was not an abolitionist in the strict sense of the word. He later wanted the government to buy all the slaves. The "Douglas Democrats" nominated Stephen A. Douglas of Illinois, who likewise was in favor of prohibiting the further extension of slavery. J. C. Breckinridge of Kentucky was the candidate of the other branch of the Democratic party, while John Bell of Tennessee was the candidate on the Union ticket.

Lincoln, defeated George B. McClellan of New Jersey in 1864.

(Watch for the election of Grant in 1868 in our next issue.)

Perhaps the resolutions and statements of the pacifists against intervention in Mexico have helped to convince Carranza that the United States Government is not bluffing. —Springfield Republican.

Mr. Jess M. Bell was pleasantly surprised at his home in Eddy street Tuesday evening by a number of his friends who rejoined him of his birthday anniversary. He received many presents. At a late hour dainty refreshments were served to the following guests:

Mr. and Mrs. David Taylor, Mr. and Mrs. Henry McCracken, Mr. and Mrs. Ruben Donahue, Mr. and Mrs. Oscar Morgan, Mr. and Mrs. William R. Bell, Mr. and Mrs. Frank Mulenix and little daughter Evelyn, and Mrs. Michael Haag, Misses Lena McCracken, Mabel and Mildred Morgan, Mildred and Pauline Donahue, Helen Bell, Arthur and Elmer Haag, Raymond Bell, Kenneth Bell, Paul McCracken and Oscar Morgan, Jr. and the hostess, Mrs. Jesse M. Bell.

Mrs. A. M. Cornel entertained the Social Embroidery club Saturday afternoon at her home in Buena Vista street. The hours were spent in social conversation and a contest in which Mrs. Chas. Elchorn and Mrs. Harry Goldenberger received the favors. Mrs. Robert Conley of Columbus received the guest trophy. The ladies then enjoyed a chicken supper at the First Presbyterian church. The next meeting will be held with Mrs. Chas. Elchorn in Prior avenue.

An enjoyable evening was spent by the members of the Social Sewing Club and their families July 4th at the home of Mr. and Mrs. W. W. Butt in Loudon street, Granville. All were laden with well filled baskets and at 6 o'clock a delicious picnic supper was served.

Later in the evening a splendid display of fire works was shown.

Miss Ethel Weakley is entertaining this afternoon with a theatre

party at the Auditorium, honoring her guest, Miss Elma Young of Mt. Vernon. Miss Weakley's guests are Misses Elma Young, Nellie Fleming, Alice Henry, Josephine Hukshier and Willa McCort.

Mrs. George Upton is entertaining on Monday afternoon at her home in Hudson avenue in honor of Mrs. Walter Bainbridge (Hazel Altschul.)

The members of the Alternate club were given a delightful surprise by their husbands, Thursday evening when the men entertained them at dinner at the hotel at Browns-ville, and later the party motored to the lake.

Those in the party were Dr. and Mrs. H. B. Anderson, Mr. and Mrs. Homer Jones, Mr. and Mrs. Ralph Davis, Mr. and Mrs. Carl Dayton, Mr. and Mrs. Lawrence Krieg, Mr. and Mrs. W. W. Gard.

The Spencer Chapel Sewing club met Thursday afternoon July 6th with Mrs. Charles Morrison. Those present were Mrs. Arthur Snelling, Mrs. James Morgan, Mrs. Homer Rogers, Mrs. Wm. McInturf, Sr., Mrs. Wm. McInturf, Jr., Mrs. Chas. McInturf, Mrs. Chas. Poundstone, Mrs. Marion Bounds, Mrs. J. K. Poundstone, Mrs. Edwin Goldsmith, Mrs. George Morgan, Mrs. Orville Goldsmith, Mrs. C. G. Handley, Orville Hartman, Mrs. John Handley, Mrs. J. M. Kemper, Mrs. Homer Rian, Misses Gladys Vermilion, May Rogers, Minta Kreager, Emma Dodson, Hazel Snelling, Marie McInturf, Catherine and Jane Bounds, Messrs. Howard McInturf, James Morgan, Jr., Herman Morrison and Robert Handley. Sewing and a business meeting occupied the afternoon and two new members were added to the list. A delicious luncheon was served by Mrs. Morrison; she was assisted by her sister, Mrs. Chas. Poundstone. The next meeting will be held August 2 in place of August 3, which is the regular meeting day. The reason for this change is there will be a social at Little Clay Lick church on Thursday evening, Aug. 3, of which this club is a part. The next meeting of the Sewing Club will be held with Mrs. Arthur Snelling.

The choir of the East Main Street M. E. church and their friends held an outing at Buckeye Lake on Thursday. Those in the party are Misses Edith Walker, Ruth Johns, Bertha Hieber, Sadie Jones, Esther Alsdorf, Messrs. Shed Johns, David Shaw, Howard Conath, Charles Timbers, James Castle. The party will be chaperoned by Mr. and Mrs. Alsdorf.

Mrs. Guy Price was hostess to the Busy Bee embroidery club at her home north of the city Thursday. The afternoon was devoted to needle work, after which a dainty luncheon was served the members and several guests. Miss Sarah Walker will entertain the club Thursday, July 20.

At noon on Friday Mrs. C. L. Conrad entertained at her home with a dinner of beautiful appointments. It being Mrs. Conrad's birthday anniversary. Her six sisters, all of Columbus, joined her and this unbroken circle of seven sisters was indeed a happy party.

The table which was spread in cozy arbor on the lawn was beautifully arranged, carving out in every detail the color scheme of purple and white. Large bouquets of purple clematis served as adornments for each end of the table, while in the center was a huge heart-shaped birthday cake.

The seven sisters are: Mrs. C. L. Conrad, Mrs. Mary J. Lotsperch, Mrs. Daniel Matthews, Mrs. William S. Ream, Mrs. William S. Carlisle, Misses Katherine and Alma Shilling. Other guests were Mrs. Tarthema Conrad, Miss Jane Miller of Columbus, Mr. William S. Carlisle of Columbus and Mr. Carlisle Conrad. Misses Esther Kissano and Anabel Conrad assisted in serving.

## Our Boys and Girls

Who of us do not remember the childish fear that often came when our mothers closed the door or turned off the light with her goodnight kiss? The fear of the dark room is something almost sure to be found in every child. There may be strange animals in the dark, or burglars, or merely be a haunting terror of something unknown. Such fears must never be laughed at. The best plan is to make home seem a very safe place, where father and mother are always near. Later on will come the time when the child may be taught physical and mental bravery.

Perhaps this way of helping timid children to sleep in a strange bed may help. Make a rag baby of unbleached muslin, fully large as a real baby, stuff it with cotton batting, make eyes, nose and mouth with ink. Make a night gown for it. It's unbreakable, and soft if they happen to fall upon it; and lots of comfort. Such a rag baby can be used five years. It will help in teaching children to sleep alone in the room; in time the baby is forgotten altogether.

His Experience. "Pa," said the boy, looking up from his book, "what does a man's better half mean?" "Usually, my son," replied his father from behind the evening paper, "she means exactly what she says."—Philadelphia Press.

Misery loves company, which may explain why some people are never so happy as when they are alone.

## Directors of Children's Work at Chautauquas on Redpath Circuit

**A** GAIN this season the children's department is to be an important part of the Chautauqua. Beginning with organization and a few stories on the first afternoon, the work will reach a climax in the Mother Goose Festival, with the "story girl" directing and the local members of the Junior Redpath Club taking part. All children, holding junior season tickets will be eligible.

In the group shown above are the six young women who are to have charge of the children's department in the various cities on the Redpath circuit. By referring to the souvenir program it is possible to know which of these directors is to be here during Chautauqua week.

**What the Russian Offensive Means.**  
The Russians have proved that they can still hold the Germans, and beat the Austrians and the Turks. Therefore it is plain to the whole world that the West front must be gradually depleted of German troops, or the Russians will sooner or later beat back the Austrian troops as they did before, helped this time by Italian pressure as well. But if the Germans deplored the West front, they must take the offensive against their most powerful enemies, a policy whose unsoundness is understood better by German soldiers than by any other soldiers in the world. Meanwhile the British blockade tightens, the food question persists. The German Staff—the Great General Staff—must never have felt so much like rats in a great trap as they feel today.—New Republic.

## Obituary

**Isaac Williams.**  
Isaac Williams, 81 years, former well known Licking county farmer, died late Friday evening at the home of his son Willard Williams in McKean township, following an illness of several weeks. Funeral arrangements have not been completed.

Mr. Williams was born in McKean township and spent the greater part of his life in that district. Several years ago he went to Oakland, Ill., where he made his home until recently. He leaves to mourn his death, three children, Orris, Willard and Mrs. May Folger.

**Death of Infant.**  
Louis Francis, three day old son of Mr. and Mrs. Harry Bourner, of 405 North Fourth street, died at the home of the parents this morning at 2 o'clock. The funeral took place at 1 o'clock this afternoon. Burial at Mt. Calvary cemetery.

## Everyday Etiquette

"I am going to give a little informal dinner to a few friends, will you please tell me whether the glasses on the dinner table should be placed with stems up, until the guests are seated?" asked Aunt Grace.

"No, it is not correct to have glasses on the table, stems up. They should be in readiness for serving," replied her sister.

**Her Class.**

**Changed Words.**  
The English language presents a large number of words that have been completely changed in their significance since they first came into use. In some cases their meaning has been exactly reversed. A conspicuous example of this is the word "let," which Shakespeare uses several times with the meaning "to hinder." Hamlet exclaimed, "I'll make a ghost of him that lets me," of course "him that stops me."

The word is used in the same sense in the Bible, as in II Thessalonians II,—"He who now letteth will let until he be taken out of the way."

"Ravel" and "unravel" mean exactly the same thing, although at one time to unravel probably meant to reduce confusion to order. Compare the words "valuable" and "invaluable" and "loose" and "unloose."

As used frequently in the Bible "prevent" instead of meaning to "hinder," means to "precede" or "go before," which is, of course, its etymological meaning.—Los Angeles Times.

**Holy Lands of All Religions.**  
Christians call Palestine the Holy Land because it was the birthplace of the Christian religion on earth as well as that of the Saviour, whose birth, ministry and death are inseparably associated with the history of Jerusalem and vicinity. To the Mohammedans Mecca, in Arabia, is the holy land, it being the birthplace of Mohammed, the saviour of the followers of that faith.

India is the holy land of the Chinese and other oriental Buddhists, it being the native land of Sakya Muni, the supreme Buddha. Else, one of the several divisions of the ancient Peloponnesus, was the Mecca and the Jerusalem of the ancient Greeks. The temple of Olympus Zeus was situated at Elis, and the sacred festivals were held there each year. The believers in the Shinto religion make annual pilgrimage to Sitsa Kara, the immense stone pillar where their supreme ruler last stood while talking to men.

**Pigeons in Constantinople.**  
In no big city in the world are there so many tame pigeons as in Constantinople. In many squares in London there are small flocks of pigeons, but in the Turkish capital they are to be seen by the thousand. These pigeons are sacred, and, indeed, many a wealthy Turk leaves money to be devoted to buying food for them. The story of why they are sacred is rather interesting. When Mohammed, the Turkish prophet, was flying from his enemies he hid in a cavern. At the mouth of the cavern two pigeons built their nest, so tradition runs, while across the entrance a spider spun its web. The soldiers who came along some days later felt certain that no one had entered the cave, seeing the birds nesting and the spider's web, and so never troubled to enter it and search. Ever since then the Turks have held pigeons and spiders to be sacred.

**Gifts of the Grass.**  
The grass is missed only by its absence. When we pass by a house which is minus a green lawn or grassy plot in front we exclaim, "What a blot on the landscape!" In a vague way we realize that the grass gives tone and color to outdoor life as nothing else can; that no picture is complete without it. All the beauties of the seashore—the bold rocks, the crested surf, the dashing waves, the lights and shadows which play at sunrise and sunset beside old ocean—cannot compensate for the lack of the grass beneath our feet. Friends wintering at southern beaches have told us that they grew homesick for the grassy fields and meadows of home.—Margarita Woodward in Countryside Magazine.

**Naming the Baby.**  
Give your baby a name that will suit him or her throughout life. Let it be a euphonious, well balanced name, indicative of intelligence, character and success and one so easily written or spoken that no nicknames will ever be found necessary. If there is available a family name with these good qualities, all the better. Do not indulge in levity, do not give way to sentiment, do not surrender to affectation or romance in this matter of selecting a suitable name, and avoid novel combinations and plays upon words without loading the child down with cheap commonplace.—Dallas News.

**Starting the Tears.**  
Her Husband—Do you know, dear, that I found my first gray hair this morning? His Wife—Oh, give it to me, John, and I'll keep it as a souvenir to remember you by. Her Husband—What's the matter with me keeping it to remember you by?—Indianapolis Star.

**When France Washed in Holland.**  
In the sixteenth century clothes were sent from all parts of France to be washed in Holland, where the water of the canals was supposed to have special cleansing properties. The cost of transport was about ten times greater in those days than at present.

**Out of Sight.**  
Country Cousin—Of course pertaters grows underneath the ground. City Cousin—H'm! Yes, but what gets me is how you tell when they're ripe or not.—Farming Business.

**When She Sees It Quickly.**  
"Can your wife see a joke?" "If it's in the shape of a bonnet or a dress that some other woman is wearing she can."—Detroit Free Press.

Worry, whatever its source, weakens, takes away courage and shortens life. Dr. Engle and wife spent Sunday with Bradford Bollwiese and wife.

**Quaker Quips.**  
(Philadelphia Record.)  
Fight your own battles. The fellow who takes your part will generally take more than that.  
The man who is satisfied to wait for something to turn up generally has to pick it out of the discard.  
It shouldn't take a fruit grower to convince you that the apple of discord should be slipped in the bucket.

C. Harrington Davis and Walter J. Bowers left for Detroit this afternoon to attend the salesmanship convention next week.

Miss Mildred Meridith has returned home from a visit with relatives in Ashland, Ky.

## Milady's Boudoir

**Summer Daintiness.**  
Daintiness is rather at a premium this summer, so take a few of the following tips to heart and make use of them when seated before your toilet table.

First, keep your hair free from perspiration and matting, by frequent shampoos and drying in the sun. It looks like a bit heavy or oily, in spite of recent shampooing, try this treatment before retiring: Mix orris root (powdered) with as much pure alcohol or cologne water as will shake up well together. Pour this into a shallow dish and dip your hair brush into the mixture; then brush the hair thoroughly, making sure to get into the scalp.

The orris root and the alcohol will carry off most of the oil and perspiration and leave the hair fluffy and dry. Then part your hair in a circle all the way round, front, sides and back like a long fringe. Braid what is left at the crown and twist lightly. Then with kid curlers or patent crimpers of any sort or even soft rags. Put the fringe up tight, and in the morning you will have an effective wave that will last longer than if you use the irons.

Nothing is more unsightly than a girl who curls her hair just on the surface and rates the straight hair beneath. If you wave your hair at all, wave it deeply that the straight locks beneath are completely hidden. Do not rat your hair at all. Good coiffures are now brushed to a satin smoothness after being waved tight, and the hair is then smoothed out, the hair and dress the back plainly. The back hair, and especially the scolding locks should be dressed as carefully as the front or the lines of your head will be out of proportion. Do not apply makeup or even powder to your face and forget your neck and ears. If you have a harsh dry skin, apply cold cream, rubbing it in with a rotary motion, first on the face, then on the throat and finally behind the ears, until you feel that it is all absorbed by the pores. Then dust the face, throat and back of the ears with powder, making sure that you put it on evenly. Finally, just before leaving your room, rub the nose lightly with powder.

## Y. M. C. A. Notes

A large number of payments on subscription which were made during the recent campaign have been coming in lately. The fact that so many of Newark's citizens have manifested so great an interest in the upbuilding of the Y. M. C. A. is very pleasing to the Association officers. One prominent professional man said that he had always been interested in the Y. M. C. A., but that until he had thrown himself wholeheartedly into the recent campaign and made some study of the work he had not realized by magnitude and value to the community.

The cadet hike which was announced for last Tuesday had to be called off because too many of the boys were planning other things for the Fourth. But the hike will be held next Tuesday without fail, weather permitting. All members of the cadet class should be at the building by 8:30 Tuesday morning. The Junior boys' baseball team had another encounter with the Grandville boys last Tuesday morning and saw to say our team was the loser; score 15 to 6. As an all-time boys say that the game was played so early in the morning that they weren't real wide awake and alert yet. Better luck next time, boys.

A group of Mt. Vernon boys who are on a vacation trip stopped at the building Tuesday and Wednesday. They seemed to be having a fine time. We are glad to have them with us.

A baseball game for the senior

members has been arranged at last. The "Y" team has scheduled a game with the "Grocers" team for next Thursday afternoon. The "Y" team expects to have a game each Thursday afternoon from now until September 1, and perhaps Saturday afternoon games will be arranged. Our first "Saturday Night" of this season will take place one week from tonight in the lobby. This social will be especially for the boys from 10 to 16 years of age, although the older members will be welcome. A social for the older members will be held a couple of weeks later. Games, music and light refreshments will help to make the evening a merry one. Dave Pierce has promised to sing and play some of the songs that the boys delight to hear. The hours are from 7:30 to 9:30 next Saturday night.

## Y. W. C. A. Notes

"After all, a man's serviceableness means much beyond his prayer."

Our prayer has been that we might be able to meet our first payment on the Y. W. C. A. pledge when it comes due, July 1st, and by perseverance our serviceableness reached that prayer and we—the residence girls—made the payment the day before it was due. We are making this pledge by the sale of chocolate, chewing gum, etc., and anyone desiring to help in this work may do so by purchasing sweets from Mother Pierce at any time, in the dining room.

Miss Jessie Burns, our industrial secretary, and delegates from industrial clubs, have been attending industrial club girls' council at Western college, Oxford, Ohio, the past week. They report an enthusiastic time and are crowding over a prize received for the best dressed delegation in the parade. Their costumes were those of Yankee Doodle girls.

On Tuesday, July Fourth, Mother Pierce and the house girls took well-filled baskets and went to the park, where they spent the day in a most delightful manner. Miss Lucille Brooks, who is spending her vacation at her home in the country, joined the party for the day. Misses Edna Riley and Katherine McClain, two of our boarding home girls, are spending a week with a house party at Hazlewood cottage, Buckeye Lake.

What about camp and swimming pool? We have had many inquiries, which I think we can answer just as soon as Miss Childs, our general secretary, returns. She has been spending the last two weeks at her home in Lansing, Mich., attending the wedding of her sister, but we expect her home today. Several cards have been received at the Y. W. C. A. reporting a delightful visit.

It is earnestly desired that as many as possible of the board members attend the regular board meeting on Friday evening, July 14th, as some questions of importance are to be discussed at this meeting. As so many of our people are on their vacations, it is necessary that all who are in town attend, in order to make a quorum.

## COUNTRY SCHOOLS

To the Patrons and Officials of Licking County School District:

During the vacation months the office of the County Board of Education will be open always on Wednesdays and Saturdays from 9:00 until 11:00 A. M. and from 1:00 until 4:00 P. M. On other days the office will be open at irregular times but persons having business will always find the County Superintendent at 177 Ninth street or by calling 1042 Automatic Phone. Boards of Education desiring to meet with the County Superintendent will find his office at their service or he will meet with them at their regular place of meeting. He very much desires such meetings for by this way much misunderstanding is avoided. 6-17-Sat-4t

Should Sloan's Liniment Go Along? Of course it should! For after a strenuous day's work your muscles have been exercised to the limit an application of Sloan's Liniment will get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.

## Lodges

K. O. P.

Newark Lodge, No. 13.  
At the regular meeting held on Thursday evening there was a very good crowd out, considering the warm weather and the meeting was very short, owing to their being no degree work on for that evening.

The relief committee report all sick members getting along nicely, with one or two exceptions. The officers for the ensuing term were installed at this meeting, and they all seem to want to take hold of the work with a vim and it is hoped that their term of office will be as successful as the former ones. All members that went to Coshocton and Lancaster report good times at both places and that they were royally received.

Next Thursday evening the Page rank will be conferred on a class of candidates in the new form and all members that have not seen this work should come out and witness something fine, as it is like the "Old, Old Story" it never grows old. We are glad to note that we have visiting brothers at almost every meeting and they are always welcome, as the latch string of old No. 13 is always out to visitors.

**Pythian Sisters.**  
Alberta Temple, No. 355, Pythian Sisters, met in regular session Wednesday evening with about one hundred in attendance. Three knights and three ladies were initiated into the mysteries of the order. This has been one of the most successful terms of Alberta Temple with Sister Zilphia Loughman as the presiding officer. The outgoing entertainment committee gave a fine report for the term, having made the neat sum of \$135.50 for which they used to complete the furnishing of kitchen for Brother Knights.

Under new business came installation of officers. Sister Bessie Cramer installing the following: P. C., Zilphia Loughman; M. E. C., Anna Devore; E. C., Jessie Littton; E. J., Flora Johns; M. of R. & C., Carrie Schnaidt; Protector, Virginia Mayer; Guard, Sophia Smith. With these officers in charge we can look forward to another successful administration.

Alberta Temple has now the largest membership in District No. 9, which she is proud of. Many visitors were present and gave interesting talks, after which the season closed and all retired to the banquet hall where refreshments were served.

U. R. K. P.

On Tuesday, July 4th, the reunion of the First Regiment, U. R. K. P., was held at Lancaster, O. Licking company, No. 121, being a part of the First regiment, we were ordered to report at Lancaster on that date and accordingly made arrangements for a special train in order to go and come when ready. At 10:30 a. m. a street parade was held and companies from Columbus, Athens, Nelsonville, Zanesville, Fredericktown, Lancaster, and Newark, participating besides local companies of fraternal orders and floats and costumed people appropriate to the celebration of Independence Day. The battalions were ordered to fall in at 3 p. m. at which time a battalion parade and review was held. Col. W. C. Graham and staff were the inspecting officers. Adjutant Captain E. Vance of Columbus and Major Colonel Turner of Lancaster were in charge of the battalion. At the conclusion of the parade, Colonel Graham called the captains and lieutenants of the companies from Athens, Zanesville and Newark before him in floral hall on the fair ground and announced that a committee composed of two standing army officers and a commissioned officer of the U. R. K. P. had viewed both parades and looked over the reports of the various captains, and awarded the following prizes based on military appearance in parade, per cent of Sir Knights in line and the appearance in dress parade: First prize, \$50, Newark; second prize, \$30, Athens; third prize, \$20, Zanesville.

Captain Wolinsky and company felt grateful for the honor of winning first prize and both were given many flattering compliments by those witnessing the parade. Let Wednesday Sir Knight come out on Wednesday evening as we have a question to decide upon that was referred to the respective captains of the First regiment.

Roland Lodge.

Lodge Deputy J. S. Loughman will install the officers for the ensuing term at the meeting of Roland Lodge, No. 305, next Tuesday evening. It is the wish of the installing officer that all of the recently-elected officers be present on this occasion. There will be no degree work, but after the session is over it is said a banquet will be served by the losing side in the recent contest. This announcement should be sufficient to bring out a large number.

Roland Lodge desires to congratulate Captain Wolinsky and the Uniform Rank boys who went to Lancaster on July Fourth and took first prize in the regimental drill. There were 48 members of the company in Lancaster and they made a splendid appearance and many favorable comments were heard regarding their military bearing.

**Modern Woodmen.**  
Cedar Camp, No. 4727, M. W. of A. met in regular session Wednesday. Considerable business was transacted. On next Wednesday night arrangements have been made to adopt a class of candidates and the full work will be put on. No doubt this will be the last time that the work will be conferred during the hot weather, and all candidates that have just been obligated are requested to be present to witness the work in full. **Look Good—Feel Good**  
No one can either feel good nor look good while suffering from constipation. Get rid of that tired, draggy, lifeless feeling by a treatment of Dr. King's New Life Pills. Buy a box to-day, take one or two pills to-night. In the morning that stuffed, dull feeling is gone and you feel better at once. 25c at your druggist.

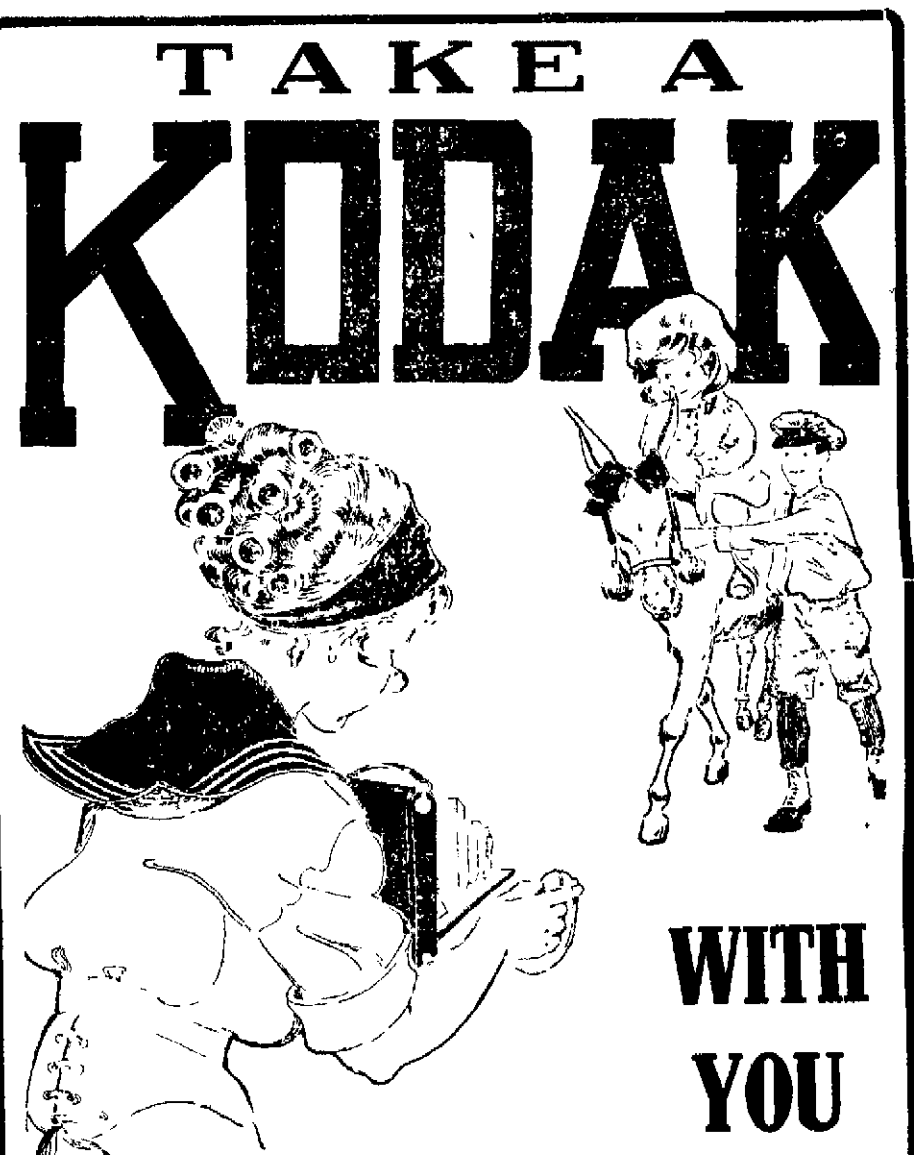

**Look and Feel Clean, Sweet and Fresh Every Day**  
Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting large volume of waters from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

# SIXTEEN MILLIONS IN AUTO FEES SPENT ON ROADS

[Special to The Advocate]  
Washington, D. C., July 8.—Ninety per cent of the registration and license fees paid in 1915 by automobile owners to the states, or \$16,213,387, was spent for the building and maintenance of county and state roads, according to a compilation just published by the Office of Public Roads, U. S. Department of Agriculture. In all, 2,445,664 motor vehicles were registered in that year and their owners paid a total of \$18,245,713 for registrations and drivers' and dealers' licenses. This is an increase of \$5,863,760 over 1914, and an increase of 734,325 in the number of vehicles registered. Automobile fees now defray nearly 7 per cent of the total amount spent on rural road and bridge building, whereas in 1906 the income from this source was less than three-tenths of 1 per cent of the total expenditure.

The growth of the volume of fees and registrations is noted by the fact that in 1901, New York, the first state to require fees, collected only \$954. In 1906 only 48,000 cars were registered throughout the entire United States. By 1915, however, the number had jumped to the figure given, so that there is slightly more than one motor car registered for each of the 2,375,000 miles of road outside of the incorporated towns and cities.

The relation between cars and road mileage varies widely in different sections. There is only one motor car for every 6 miles of rural road in Nevada, but nearly six motor cars for every mile of such road in New Jersey. There is an average of one motor car registration for every 44 persons in the United States. Iowa apparently leads, however, with one motor car for every 16 persons, while only one for every 200 persons is registered for Alabama.

It must be understood, however, that the figures of registration do not necessarily represent a total number of cars, as some of the states do not require annual registration, others group pleasure and commercial cars and motor cycles in their accounts, while still other states do not require registration of motor cycles.

There is great inequality in the registration fees charged by the different states. The average of the United States was \$7.46. The state of Vermont, however, secured in 1915 a gross revenue of \$18.14 for each motor car, while Minnesota received only about 50 cents annually for each car. In Texas and South Carolina no annual registration fees are collected, the only requirement being a county fee of 50 cents and \$1 respectively for perpetual registration. Most of the states, however, also levy annual taxes on motor vehicles and this adds importantly to the public revenue contributed by the owners of motor-propelled vehicles.

In the number of registrations New York State led in 1915 with 255,242; Illinois was second with 180,832; California third with 143,797; and Pennsylvania fourth with 160,127.

# HAS PICTURE TAKEN FOR CAMPAIGN USE

President Wilson.

This is the very latest picture of President Wilson and was taken a few days ago in Washington. It will be seen on campaign posters this summer.

have two big features to offer to picture fans.

As usual the Billie Burke feature, "Gloria's Romance," the sixth chapter, will be seen Sunday and Monday this time. Billie Burke is so well established with picture admirers that we would waste space telling how good it will be. The other feature will be "The Hero of Submarine D-2," a naval drama of unusual strength, featuring Charles Richmond, who was seen at the Auditorium at the time of "The Battle Cry of Peace" showings. This is a wonderful Vitaphone masterpiece and the scenes are taken by permission of the government.

Mabel Taliaferro, one of the most versatile and popular young actresses now before the public, will be seen on the screen here at the Auditorium Monday and Tuesday in "The Snowbird," a Metro wonder-play in five supreme acts, which was produced by Rolfe Photoplays Inc. for the Metro program. Editor Chow, who directed this Taliaferro feature, has the leading male role in "The Snowbird." Other prominent members of the cast include James Cruze, Walter Hitchcock, Warren Cook, Arthur Evers and Kitty Stevens. Miss Taliaferro made her debut before Metro audiences in "Her Great Price," which proved one of the strongest features ever offered on that popular program.

"Who's Guilty?"

When an audience of more than two thousand persons packed Loew's theatre, in New Rochelle, to the doors on Thursday evening, June 15, at prices ranging from two to three dollars, there was an indication as to the extent of the popularity of "Who's Guilty?" and those who play in it. The occasion was a performance for the benefit of the Blessed Sacrament Church, the feature of which, by special request of those in charge, was the personal appearance of Miss Anna Nilsson and Tom Moore, stars of "Who's Guilty?" It was because of the belief, on the part of the members of the large Catholic parish that "Who's Guilty?" is a photoplay worthy the attention of every man and woman that Miss Nilsson and Mr. Moore will be seen. At the Grand tomorrow.

# NEW TAXI LINE STARTS SERVICE MONDAY MORNING

"Buster" Bowman and George Pieri, two well known local chauffeurs, have formed a partnership and will branch into business for themselves, having leased the Gallacher stand in West Main street for an office where an attendant will be found day and night to answer all telephone calls, both phones having been installed.

Messrs. Bowman and Pieri have been engaged with the Sigler Taxi line for several years. They are careful and experienced drivers and it is said can put a Ford car together with their eyes shut. They are deservingly and capable and no doubt will build up a splendid patronage.

# ARE ATTENDING SUMMER SCHOOL IN WISCONSIN

Letter From Frank L. Johnson Tells of Good Work That is Being Done at College Camp.

The following letter has been received from General Secretary Frank L. Johnson who with Charles Allen of the Local Y. M. C. A. is attending the Y. M. C. A. summer school at College Camp, Wisconsin:

In view of changing world conditions and the new demands constantly made on association workers for which they must be prepared this year's school is probably the most interesting held in many years. The whole of the forenoon and part of the afternoon are taken up with class work, which program includes the daily 7:40 a. m. devotional service in which the whole camp participates.

There are six classes in Bible, classes in "religious fundamentals," association history, association administration, business management, physical education, gymnastics and aquatics.

It is interesting to note that in the camp there are Poles, Austrians, Hungarians, Canadians, Germans, Swiss, English, Koreans, Mexicans, Hindus, Chinese, Japanese, Hawaiians, Philipinos, all interested in better methods of promoting the work of the Kingdom of the Prince of Peace.

The camp is five acres of original forest on the shores of beautiful Lake Geneva, about which the very atmosphere is conducive to getting one back to nature and nature's God. Also it is a source of great privilege and uplift to be associated with a group of several hundred men all gathered to consider the things of the life worth while. For the Sunday morning services such as Fred B. Smith of New York, Charles W. Gilkey of Chicago, William Pierson Merrill of New York City, are given us.

A Fourth of July program that could probably not be duplicated anywhere, was carried out at the Y. M. C. A. Summer School at College Camp, on Lake Geneva, Wis. The regular daily program of school work occupied the whole day, and the special program took place in the evening.

On the green slope just off the lake under the trees in the quiet and cool of the day, the whole camp, about three hundred persons assembled.

The spirit of internationalism was conspicuous both in the nations represented and in the messages from these various nationalities. Throughout the program there was an atmosphere of unity and brotherliness impossible in any such group not having one common aim, viz the advancement of the Kingdom of God in the hearts and lives of men of all nations.

The spirit of the occasion was climaxed in the address of the day delivered by S. W. McKill, General Secretary of the Nashville, Tenn., Y. M. C. A.

Her—"No doubt you think I am older than I really am."

Him—"Not at all, I'm sure you are not as old as you look."—Indianapolis Star.

# SAYS MOBILIZATION WAS BADLY BUNGLED

J. Hampton Moore.

A congressional inquiry into the mobilization of the national guard has been demanded by Congressman J. Hampton Moore, Republican, of Pennsylvania. He has introduced a resolution in the house calling upon the secretary of war to report immediately concerning certain charges of inefficiency which have been made against the war department's handling of the guard mobilization.

## Popular Science Night at Chautauqua To Include Entertaining Demonstrations

Montreville Wood in an Aeroplane with Gyroscope in Position

Montreville Wood

The Stage as it Appears During One of Prof. Wood's Demonstrations With the Ultra-Violet Ray

MONTRVILLE WOOD'S popular scientific lecture and demonstrations on the sixth night will be one of the Chautauqua's most interesting features. In his entertainment Professor Wood is to be assisted by his daughter, Miss Allene Wood.

The gyroscope, the ultra-violet ray and the monorail car are described and demonstrated in a way that is both instructive and amusing, for, in addition to the statement of scientific facts, Professor Wood has a talent of introducing appropriate anecdotes and experiences to emphasize his assertions.

During the evening Professor Wood is to use a fine assortment of apparatus, and his demonstrations will be of such a nature as to interest every person in the audience. He will explain how the gyroscope may be used in preserving the equilibrium of automobiles, battleships and aeroplanes. He will demonstrate the possibility of storing light by means of the ultra-violet ray. He will give members of the audience an opportunity to try their hand with the wresling gyroscope.

**Clogged Liver**  
"Muddles Up" the  
Entire System  
A Wineglassful of Tollo Water Will Make Your Liver Act Freely and Start You Feeling Good In Half An Hour  
The liver is the drain of the system. When it becomes clogged all kinds of stomach complaints—constipation—headaches—and other troubles result.  
To resort to calomel and such drugs, is a mistake. Such "remedies" weaken the entire system. They always irritate the delicate membranous linings and frequently salivate and upset the stomach.  
Instead of such "harsh measures" go to your druggist and get a 15 cent bottle of concentrated Tollo Water from Dawson Springs, the famous Kentucky health resort (it contains enough Tollo Water for several liver baths), and before breakfast take about a tumblerful of Tollo Water in a glass of drinking water.  
It will flush all the bile and waste matter from the system and you will be surprised and pleased at how quickly and thoroughly it acts. Your headaches will disappear, your eyes will become bright and clear, your meals will no longer distress you by forming gas that bloats your stomach.  
The occasional use of Tollo Water as a liver bath keeps the stomach and liver in perfect condition.

**BLEW SAFE VAULT.**  
Toledo, July 8.—Robbers blew the vault of Oakwood bank last night and got more than \$500. Three men are being sought. They abandoned a ditched auto near Hastings at 3 o'clock. Some of the loot was found near the auto.  
Wrong Quarry.  
With a wild sweep the wind tore round a sudden corner and removed the hat from the head of a respectable and nearsighted citizen who chanced to be passing.  
Peering wildly round, the man thought he saw his hat in a yard beyond a high fence. Hastily climbing over, he started to chase it, but each time he thought he had caught it, it got yet another move on.  
Then a woman's angry voice broke on his ears.  
"What are you doing there?" she demanded shrilly.  
He explained mildly that he was only trying to retrieve his hat, whereupon the woman said, in wonder:  
"Your hat? Well, I don't know where it is, but that's our little black hen you're chasing!"—London Mail.

Mr. James Fowles and family attended the funeral of their uncle, Reuben Elliott Wednesday. Mr. Elliott was 86 years old, a good and highly respected man and was laid to rest in Martinsburg cemetery.

**RICHEST MAN CELEBRATING 77TH BIRTHDAY**  
Cleveland, July 8.—John D. Rockefeller, the world's richest man, Saturday quietly celebrated his seventy-seventh birthday anniversary at Forest Hill, his East Cleveland estate. During the morning he played golf over the Forest Hill nine-hole course. His "birthday dinner" was served at noon.

**When We Feared the Indians.**  
At a recent gathering of life insurance men one of the old timers exhibited a copy of a permit which had been attached to a policy issued in 1808. This permit read:  
"The within assured has permission to reside in any settled part of the states of California, Nevada, Oregon or Washington territory and while so residing to make trips (as a passenger only) on first class steamers plying between the ports of Washington territory, the states of California and Oregon and the Sandwich Islands and to proceed to and return from in like manner or by public conveyance overland."  
"Provided that written notice be given by the assured whenever any trip to the Sandwich Islands or to the Atlantic states is undertaken to the general agent of the company at San Francisco, Cal., and provided, also, that on the overland route the said assured to take his own risk by death from hostile Indians."—Wall Street Journal.

**A Natural Born Spender.**  
When a long forgotten cousin died and left Miss Miffled a round hundred thousand the entire village, after having recovered from the shock, fell to wondering whether the faded little spinster, after having for sixty-three years pinched and scraped and plain sewed just to keep soul and body together, would, after all, get much comfort from her eleventh hour opulence.  
The state of little Miss Miffled's mind was revealed when her next door neighbor inquired what she should do with her money—did she mean to save it?  
"Save it!" Her eyes flashed with new found scorn. "Listen to me, Betsy; all my life long I've wanted a pair of side combs with yellow glass beads onto 'em, and now I'm goin' to hev 'em; yes, ma'am, even if I should hev to go as high as 50 cents!"—Youth's Companion.

**Coffee With Milk.**  
For many years after coffee was first drunk in Europe, says the Manchester Guardian, no one thought of mixing it with milk any more than the Turks and Arabs do now. The use of coffee au lait seems to date from 1687. Mme. de Sevigne, writing to her daughter in that year, said that a doctor much in vogue "has taught us to mix sugar and milk with our coffee. They make a most delightful compound, which will help to support me through the rigors of Lent."  
In a letter written seven years earlier she had mentioned as an eccentric proceeding on the part of Mme. de la Sabliere that "she drinks milk to her tea." Readers of "Unbeaten Tracks in Japan" may remember that one of the Alms thought it disgusting that Mrs. Bishop should drink milk and pollute her tea with a fluid having so strong a smell and taste.

**Rip Van Winkle—Himself.**  
Joseph Jefferson used to tell a story of his visit to a village in the Catskill mountains. He was taking a cup of tea in the hotel when he heard a negro waiter giving a detailed account of legends.  
"Yes, sah," he continued, "Rip went up into de mountains, slep' for twenty years, and when he come back hyar in dis berry town his own folks didn't know him."  
"Why," said the listener, "you don't believe the story's true?"  
"True? Ob course it is. Why," pointing to Jefferson, "dat's de man."

**Base Prevaricators.**  
"There goes a man who boasts that he has never bought a gold brick."  
"Reminds me of the fellow who says he has never told a lie."  
"Yes. He reminds me of the chap who says the upkeep of his automobile is next to nothing."  
"And he's in the same category with the man who says he never was sick a day in his life." — Birmingham Age-Herald.

**Fuel in Ancient Rome.**  
The fuel of the ancient Romans was almost exclusively charcoal. This was burned in open pans without grate or flue and gave economical heat for living rooms and baths. The inconvenience of chimneys was avoided, and the heat could be easily regulated.

**For Matinee Program at Chautauqua**

**SIGNOR GIUSEPPE BARTOLOTTA.**

**SIGNOR GIUSEPPE BARTOLOTTA**, eminent Italian tenor, is slated for a recital on the Chautauqua's third day. He has won universal distinction as a concert singer throughout Europe and America and has sung at foremost concerts in England in conjunction with such artists as Melba, Kubelik and Paderewski.

The Detroit Times, in reviewing the work of Signor Bartolotta, said on one occasion: "He is able to compass a swelling burst of melody with perfect ease. He can sing love passages in dulcet, subdued tones. But most of all he distinguishes himself in pieces of a bravura character, which are so typical of Italian music."

**PREMIUM MONEY**  
**DISTRIBUTED BY**  
**HEISEY COMPANY**

Thursday was a red letter day for the employees of the Heisey Glass company, when they received their annual premium money from the company, which amounted to between \$15,000 and \$16,000. The money is given to the employees in the manufacturing end of the business for efficiency at the end of the season each year and some substantial purses have been "pulled down" by both men and boys since the plan was adopted 10 years ago.

The Heisey Glass company bears an international reputation for manufacturing plunger cut ware, second to none, and the men and boys are encouraged each year to maintain this high standard of quality.

This year's highest prize awarded to the man making the most perfect ware was \$350 and the prizes varied from this sum down to \$10 to the boys who assisted in the making. This plan adopted by the company to show their appreciation for the good work done by the men has been an incentive to the employees, in turning out high quality tableware.

**Granville**

[Special to The Advocate]

Granville, O. July 8.—There is a dearth of action in Granville in the good old summer time, that is the despair of the ordinary newspaper correspondent. The summer school people have no interests outside their work which seems to be somewhat strenuous and other people not privileged to get away, are engaged in some highly specialized employment of one kind and another. Social affairs rouse but a languid interest, and even the few automobile accidents which occasionally enliven the day's proceedings are soon forgotten. The removal of one of the old Broadway landmarks, is being accomplished with surprising facility. Already the old Henry Reade house has turned its back upon Broadway and is almost ready to be placed upon its new foundation in Elm street, directly south of the old site, leaving the desirable location vacant until the owners, Mr. and Mrs. T. B. Jones decide to erect a new house there. Mr. T. H. Kier expects that his new house in Centreville street will be ready for occupancy by September, and there are to be numerous changes of residence in various parts of the village this fall.

St. Luke's church, Third Sunday after Trinity. Sunday school at 9:30 a. m. Holy communion at 10:00 a. m. The venerable Arch Deacon Joseph H. Dodson will preach and administer Holy communion. On Friday afternoon at 4 o'clock there will be Vesper service. You are cordially invited to attend any of these services.

At the Methodist church tomorrow the pastor, Rev. Otto Giesen, will preach in the morning on the topic: "A Cause for Patience."

At the Baptist church the subject of the morning's discourse by the pastor, Rev. Millard Brelford will be "The Danger from False Teaching."

At the Presbyterian church the morning service will be conducted by the pastor, Rev. E. D. Barnes, and in the evening they will be union service in this church with the sermon by Rev. Millard Brelford, on "The Golden Rule." The following is the schedule for the Sunday evening union services through July and August:

July 16—Methodist church, Rev. E. D. Barnes.

July 23—Baptist church, Rev. Otto Giesen.

July 30—Presbyterian church, Rev. M. Brelford.

Aug. 6—Methodist church, Rev. D. Barnes.

Aug. 13—Baptist church, Rev. Otto Giesen.

Aug. 20—Presbyterian church, Rev. E. D. Barnes.

Music for these services will be furnished each evening, under the direction of the choir of the church, in which the meeting is held. During the ministers' vacation, substitute will be furnished by pastor named for the day. A general invitation is extended to all in the community to attend these services.

Mr. and Mrs. Frank Moore of Mr. Vernon are in Granville for the week-end, guests of Prof. and Mrs. Theodore Johnson in West Elm street.

Dr. Edith Bacon of China, arrived from Cleveland last evening as the guest for a week or so of Mrs. Jacob Speicher.

Miss Louise Conant left yesterday for Cleveland where she was met by her father, Rev. J. E. Conant. After a short visit in that city, Miss Conant will go to Leavittsburg, Canada for a visit with relatives.

Miss Harriet Hunt of Boston who has been the guest of her aunt, Mrs. Helen Hunt in Park Drive, since before commencement, left yesterday for her home.

Miss Mary Hunt left yesterday for Geneva, there to visit her brother, Rev. Horace Hunt.

Mrs. Karl Eschman who has been visiting the home of her parents, Mr. and Mrs. C. S. Frazier, in Dresden, returned last evening to her home in Park Drive.

Mrs. Mamie Geach who has been at the home of her parents, Postmaster and Mrs. John Geach, since the beginning of the vacation, has gone to Geneva, Ohio, for a fortnight's visit with her sister, Mrs. Ben Woodbury.

Frank Spencer of Newark, called on his Beta brothers yesterday. A sufficient number of the boys remain at the lodge this summer to enjoy an occasional "sling" on the big porch.

Mrs. Fred Holden of New York, who, with her little son, is visiting her parents, Dr. and Mrs. J. D. Thompson in Broadway, will spend

**TO PRESERVE THE HAIR**

When your child is grown, the condition of and the amount of his or her hair will depend largely upon the way it is cared for now.

The human hair is composed of about 175,000 delicate oil plants.

Ordinary soaps and shampoos will soon destroy the natural oil and the fatty roots of these plants making the hair dry and brittle or destroying it entirely. **EVERY WEEK SHAMPOO** is an Anti-septic Oil Shampoo that cleanses and purifies the scalp thoroughly and leaves the hair just as nature intended, soft, fluffy, silky, and the scalp slightly moist with oil, but no surplus oil in the hair.

If men would use **EVERY WEEK ANTI-SEPTIC OIL SHAMPOO** instead of the strong alkali shampoos which are so commonly used, they would preserve their hair rather than invite baldness. **EVERY WEEK SHAMPOO** dissolves and removes the dandruff (dry or oily), opens the hair cells, feeds and strengthens the hair roots and leaves the hair clean, soft, fluffy, silky and the scalp healthy. A weekly application for men and children and every other week for women keeps the scalp clean, healthy and the hair in excellent condition.

**EVERY WEEK ANTI-SEPTIC OIL SHAMPOO** contains both mineral and coconut oils which cleanse the scalp and hair thoroughly, open the hair cells and give the hair plant the oil which it requires. It lathers freely, removes any surplus oil, but does not remove the natural oil which healthy hair requires.

Large bottle (4 oz. teaspoonful) 50c at N. W. Smith's and Leading Stores Every Where.

**CHARGED WITH THEFT OF THE PATTON AUTO**

The Ford car of Patton and Ross of Johnstown, which was stolen at Buckeye Lake the night of July 1, has been recovered in Columbus, and Officer Edward Harbaugh has been sent to that city to bring back the three men charged with the theft of the car. A reward of \$25 was offered for the recovery of the car, and \$75 for the arrest and conviction of the thieves.

After their arrest in Columbus the men were held there for investigation. As nothing was proven against them on the charge of stealing a Columbus machine, local police officials were notified that the men would be handed over to the Newark officers.

**Magio Italian Lakes.**

Every one knows how beautiful the Italian lakes are and how luxuriant is the vegetation on their banks. This is due to a large extent to the heat absorbed in summer by the water, stored up and given out slowly in cold weather. A calculation has been made by a scientist named Vercelli. He estimates that Lake Como has an area of 136 square kilometers and an average depth of about 600 feet. In some places the depth is twice that.

During midsummer this mass of water absorbs each bright day an amount of heat equal to that produced by burning 34,000 tons of coal. This storing up of heat goes on from the end of February until the water reaches its highest temperature in August.

From that time on the water gives out heat to the surrounding stones until spring comes again, so that it is no wonder that this region is a floral paradise.—Pittsburgh Press.

**Science in the Home.**

Home is the halfway house between earth and heaven. As such it needs the practical and the ideal, both combined, more than any other human institution. The earth side of a home must be absolutely practical, and the heaven side must be absolutely ideal if the home is to be a home.

There is more need for science in the home than for science anywhere else. Not because science is the most important thing in the home, but because the most neglected thing is always the most important. The average home is a conglomeration of guesswork, patchwork and overwork. The guesswork is the fault of the man, the overwork of the woman, the patchwork of them both. A little science in advance would prevent most of the trouble.—Independent.

**Cats—Up.**

"Sarah," said her mistress during the dinner hour, "will you go down to the basement and get the catsup?"

Sarah departed, and a few minutes later the family heard a great shooting and scampering of feet. Shortly after Sarah came breathlessly into the dining room and said to her astonished mistress, "They're up, mum."

"What are up?"

"The cats, mum."—Youth's Companion.

**Her Argument.**

"Going to drop your cooking lessons right in the middle of the course? Why, I heard you got a proposal of marriage on the strength of going to cooking school."

"I did. And now that I am going to be married, what's the use of bothering any further about cooking lessons?"—Louisville Courier-Journal.

**The System.**

First Trolley Conductor—Why was Kelly fired? Second Trolley Conductor—His car struck a man at Steenth street and carried him a block on the fender. After collecting a nickel from him Kelly in the excitement forgot to ring it up—and the man was a spotter!—Life.

**Genius.**

Genius is in advance. It addresses posterity. Is it to be wondered at, then, that it is mostly intelligible to posterity only?—London Truth.

**PRACTICAL HEALTH HINT.**

The Mouth and the Brush.

A toothbrush must be scalded or disinfected with an antiseptic wash and air dried whenever used; otherwise it will become a menace to health. Toothbrushes must not be kept where they are exposed to dust and dirt; neither should the brushes used by each member of the family stand in the same receptacle, as the germs of disease may be transmitted from one brush to another.

As the majority of diseases find their way into the human system through the mouth and nose (and the mouth is the more common entrance, it is of the utmost importance to keep the mouth and teeth perfectly clean. If the teeth are brushed carefully and the mouth and teeth rinsed three times a day with nothing but plain water, a great deal will be done to keep off sickness.

Not every one can buy antiseptic washes and powders, but every one can procure clean water (and a salty water is antiseptic) and better to keep the mouth clean and free from dangerous germs of disease.
